

# AGMGuard™

Bluetooth Smart Monitoring For Odyssey ODV-AGM31 Batteries

**STOP BATTERY FAILURES BEFORE THEY HAPPEN**

Remote Monitoring & Alerts for Truck Fleets

## FLEET BATTERY CHALLENGES

- ⚠ Batteries drain when trucks sit idle
- ⚠ Unexpected failures cause costly downtime
- ⚠ Manual inspections often miss issues
- ⚠ Maintenance lacks real-time visibility

**PREVENT COSTLY DOWNTIME – MONITOR EVERY BATTERY 24/7**

✔ Automate Battery Health Monitoring

✔ Receive Early Failure Alerts

✔ Integrate Early Failure Alerts

✔ View Data on Dashboards & Apps

## FLEET BATTERY CHALLENGES

AGMGuard™ software can be deployed on Samsara, Platform Science, or any other cloud data platforms used by trucking fleets. These platforms transmit data via their cellular networks to the DyoCense IoT cloud platform, where the data is processed & made accessible through web browsers or smartphones, providing user-friendly, interactive dashboards.

**STOP ROADSIDE FAILURES • EXTEND BATTERY LIFE**
